1 August 1969

MEMORANDUM FOR: Chairman, United States Intelligence Board

SUBJECT: Proposed Review of DCID No. 1/7  
and Related Papers

1. During the past few months DIA, CIA and NSA have made recommendations for amendments to DCID 1/7 and the USIB Policy on Release of Intelligence to Contractors (USIB-D-39.5/19). This latter document was modified in September 1967 by a Memorandum for Holders. DCID 1/7 has not been amended since the last revision in February 1967.

2. Rather than proceed with recommendations for a number of ad hoc amendments to DCID 1/7 and USIB-D-39.5/19, it is believed that a full review of these two documents, and any others which may apply, should be undertaken at this time in order to incorporate all desirable changes in a revision of DCID 1/7.

3. It is recommended that the Chairman of the Security Committee and the Chairman of the Information Handling Committee, with the assistance of appropriate USIB committees and agencies, be tasked to conduct an over-all review of all USIB-approved directives concerned with controls of dissemination and use of intelligence and intelligence information in order to recommend to USIB such changes as may appear to be desirable.
